## Warehousing

Our vast network of Warehouses throughout North America enables us to respond quickly to a variety of logistics needs. Having this flexibility can also provide consolidation opportunities that can improve your supply chain and reduce overall costs.

- Consolidation
- Short-Term Cross-dock
- Long-Term Storage
- Secure Facilities
- Fulfillment
- Forward Logistics

## Visibility, Chain of Custody, Compliance and Security. . .

As an industry leader, we understand the importance of Visibility, Chain of Custody, Compliance and Security.

- Shipment documents and pictures of assets viewable through our **password protected TMS system**
- Secure crates or lock boxes for high-value or data sensitive materials. Multiple options accommodate various size shipments.
- On Site **Scanning** and Reporting of Assets. Service can include Serial Number “Data Capture” or “Verification” - *up to two separate id numbers per asset*
- Tracking devices monitor & update real time location of your assets
- Vetted **TSA** service providers.
- Signature required *Asset Sheets* signed by driver & site contact depicting number of assets for each asset type recovered.

**ONE SOURCE for all your Logistics needs!**
